GITHUB: <https://github.com/Sugasini132> | **PORTFOLIO:** sugasini132.github.io/portfolio

CAREER OBJECTIVE

Passionate Artificial Intelligence and Data Science undergraduate with a strong interest in Machine Learning, Deep Learning, and Computer Vision. Seeking an opportunity to apply technical knowledge, develop innovative AI-driven solutions, and continuously enhance my skills while contributing to organizational growth.

EDUCATION

B.Tech – (AI & DS) at C.K. College of Engineering and Technology, Cuddalore.	2023 – 2027
CGPA: 8.67	
HSC at Professor Annousamy Higher Secondary School, Bahour, Puducherry.	2022 – 2023
SSLC at Professor Annousamy Higher Secondary School, Bahour, Puducherry.	2020 – 2021

ACHIEVEMENTS

- Secured **100/100** in the **NPTEL Programming in Java** certification and ranked among the **Top 1% (Topper)** of **19,306** certified candidates.

TECHNICAL SKILLS

- Programming Languages :** Python, Java
- Artificial Intelligence :** Machine Learning, Deep Learning, Computer Vision, Gen AI
- Web Technologies :** HTML, CSS
- Tools :** Visual Studio, Github, Google Colab
- Frameworks :** Opencv, Mediapipe, YOLO(Ultralytics)

SOFT SKILLS

- Analytical Thinking • Problem Solving • Adaptability • Team Collaboration • Continuous Learning

AREA OF INTEREST

- Machine Learning • Computer Vision • Deep Learning • Artificial Intelligence

CERTIFICATIONS

- Programming in Java – NPTEL (IIT Kharagpur) | Elite + Gold | 100/100 | Top 1% (Topper)**
- Deep Learning – NPTEL | Elite**
- Introduction to Machine Learning – NPTEL | Elite**
- Managing ML Models with UiPath AI Center (V2024.10) – UiPath Academy**

TECHNICAL EVENTS

- Participated in the **National Level Technical Conference "TechFest 2026"** organized by Ocean Academy, Puducherry | March 22, 2026.

PROJECTS

Road Violation Detection System

Domain: Machine Learning | Computer Vision | **Tech Stack:** Python, YOLOv8, OpenCV

Description:

Developed a road violation detection system to identify bike riders, helmet usage, and vehicle number plates from images and videos using a YOLOv8-based object detection model.

Real-Time Face Mesh Detection System

Domain: Machine Learning | Computer Vision | **Tech Stack:** Python, MediaPipe, OpenCV

Description:

Developed a real-time face mesh detection system to identify and track facial landmarks using a live webcam with MediaPipe and OpenCV.

Real-Time Object Detection System

Domain: Machine Learning | Computer Vision | **Tech Stack:** Python, YOLOv8, OpenCV

Description:

Developed a real-time object detection system to identify and classify multiple objects from live video using a YOLOv8 model.

WORKSHOP

- One Day Workshop on **Data Science** – National Small Industries Corporation (NSIC), Chennai | June 14, 2024.
- **Front-End Development** Workshop – Ocean Academy, Puducherry | Aug 27 – Sep 02, 2024.

INTERNSHIP EXPERIENCE

Full Stack Development Intern – Ormatrix (The Complete IT Solution) Cuddalore June 20 – July 21, 2025.

- Assisted in developing responsive web applications using front-end and back-end technologies.
- Collaborated on real-time development tasks and enhanced problem-solving skills.

INDUSTRIAL EXPOSURE

Web Development, CodeBind Technologies, Chennai (Nov 16, 2024)

Learned web development fundamentals and real-time software development workflow.

Machine Learning & Python ,CodeBind Technologies, Trichy (March 14, 2025)

Gained hands-on experience in Machine Learning concepts and Python programming.

Cyber Security, WHY Global Services, Chennai (October 24, 2025)

Acquired knowledge in ML concepts, Python programming, and content authoring techniques.

Industry Exposure Session, VDart Global Capability Centre, Trichy (February 27, 2026)

Gained exposure to cybersecurity concepts, threat detection, and data protection techniques.

(SUGASINI D)
